

USAGE GUIDELINES

INTRODUCTION:

Thank you for choosing the LUXNUR Street Light. For the safety, optimal performance, and longevity of your streetlight, it's crucial to adhere to the following usage guidelines:

1. INSTALLATION:

Qualified Personnel: The lamp should be mounted and installed by qualified personnel.

Local Guidelines: Follow local regulations and guidelines for installation and operation.

Power Precaution: Any installation mustn't be proceeded unless all the power is off.

Safety during Repair and Cleaning: Any cleaning or repairing of the lamp mustn't be proceeded unless all the power is off.

Hot Lamp Body: Do not touch the hot lamp body during operation to prevent burning or injury.

Proper Tools and Equipment: Installation must be carried out strictly according to the operation specifications, including the use of relevant tools and equipment. This encompasses the working range, warning labels, flashlamp, helmet, and work clothes, among others.

Weather Precautions: In the process of installation, ensure that the weather is suitable for outdoor high electric power working.

2. OPERATION:

Voltage: Ensure the power supply corresponds to the voltage specified for the specific LUXNUR STREET LIGHT model.

Weather Conditions: LUXNUR STREET LIGHTS are designed to be weather-resistant, but it's always recommended to avoid usage during extreme weather conditions.

3. MAINTENANCE:

Routine Checks: Inspect the light fixture periodically for any signs of wear, damage, or malfunction.

Cleaning: Use a soft, damp cloth to wipe the surface of the light fixture and avoid the use of harsh chemicals or abrasive materials.

NON-REPLACEABLE LIGHT SOURCE: The light source of this luminaire is not replaceable. When the light source reaches its end of life, the whole luminaire shall be replaced.

4. SAFETY PRECAUTIONS:

Overloading: Avoid connecting multiple lights to a single power source to prevent overloading.

Surge Protection: Use preinstalled surge protectors to protect the lights from voltage spikes.

5. MOUNTING HEIGHT:

The optimal mounting height for LUXNUR Street Lights is between 8 to 13 meters.

6. DISPOSAL:

Eco-friendly Disposal: Once the light reaches its end of the lifecycle, ensure responsible disposal. Many of its components are recyclable. Always check and follow local regulations.
